

# Cleaner. Safer. Healthier.

Vol. 4 | April 2011 | Number 4

## Kudos

Great Job! Way to Go!  
Nice Work!

### **Harry Edmond and Sally Nichols (Manager-Bob Hurlburt)**

Kudos to Harry Edmond and Sally Nichols for doing an exceptional job under a very tough task list. They both go above and beyond to see that not only their own tasks are finished in a timely manner but also look for other tasks to perform, which in this day and age is not very common. At Corning Inc., we are faced with a very difficult list of non-cleaning jobs to perform on a daily basis, plus a lot of extras, so it is a pleasure to have two hard workers like Sally and Harry.

### **Bob Hurlburt (Manager-Scott Dustin)**

John Simek, Sr. Buyer at Corning Life Sciences had this to say about Bob:

Scott, Bob has been willing and supportive of our plant beyond the average call of duty. We recently implemented a scrap recycling program with the local Adult Rehabilitation center. There were some "tweaks" in the program that required a few process changes. Bob took the lead to revise our scrap handling process and it has made dramatic improvements in the ARC's ability to receive and sort our scrap materials. It is typical of what Bob does for Corning day in and day out.

### **Liborio Rodriguez (Manager-John Zalenski)**

Liborio switched his cleaning location to the Coldmill area four weeks ago. During this time, he has improved the level of service significantly. This visible impact noticed by Matrix and our client Novelis is awesome. Liborio is an example for all Matrix associates to emulate. I would like to take the time to say "Thank You" for all your hard work. You truly make a difference everyday.

### **Jaime Evangelista, Gina Garson, and Olga Rodriguez (Manager-Donna Maggio)**

Babu G. Ranganathan, Security Officer at Harleysville Insurance Company wrote:

Things have substantially improved in relation to the cleaning crew, and particularly with supervisors Jaime Evangelista, Gina Garson, and Olga Rodriguez. The other day Olga informed me of some water leaks in the ceiling and they were very helpful in putting buckets under the leaks.

Fast Facts

## SAFETY TIP

Safety Month of the Year is April 2011!

### **MSDS Books**

Know your MSDS books and their locations. Read the books and learn how to find specific products through the numbered index. Also, use the MSDS cheat sheets whenever possible.

### **Why Use Wet Floor Caution Signs**

To prevent a fall by warning building occupants, including co-workers, of potentially slippery floors. Place signs in full view at all points of entry to a room or area that has a wet floor due to a spill, damp mopping, carpet cleaning, or any other wet maintenance procedure.

# To Your Health

## Healthy Colors

**Red** fruits and vegetables are heart healthy, help immunity and may reduce cancer risks. Try beets, cherries, cranberries, pomegranate, red grapefruit, red grapes, rhubarb, tomatoes and watermelon.

**Orange** and **yellow** fruits and vegetables contain nutrients that contribute to vision, immunity and may reduce the risk of cancer. Great choices include apricot, cantaloupe, carrots, grapefruit, mango, papaya, peach, pineapple, sweet potatoes, and yellow peppers.

**Green** fruits and vegetables have a high antioxidant potential. Try artichoke, asparagus, avocado, apples, broccoli, grapes, green peppers, honeydew, kiwi, lime and spinach.

**Blue** and **purple** fruits and vegetables have anti-oxidant and anti-aging benefits. They may also help with memory, urinary tract health and reduce cancer risks. Great choices include blackberries, blueberries, eggplant, plums, purple cabbage and raisins.

Earth Day's 40th anniversary is April 22nd! To honor those 40 years, here are some tips to get you started on "saving our planet".

- Limit the length of your shower to 5 minutes.
- Turn off the faucet while you are brushing your teeth.
- Use desk lamps instead of overhead lights.
- Use compact fluorescent light bulbs instead of incandescent bulbs.
- Walk, bike, or use public transportation.
- Turn off your computers at the end of the day or if they will not be used heavily.
- Wash your clothes in cold water.
- Use a microwave instead of a conventional oven.
- Don't use the toilet as a trash can.
- Open blinds instead of flipping the light switch.
- Donate old clothes, electronics, or furniture.
- Check and fix water leaks in your home.
- Water only the amount your plants need.
- Weatherproof your windows to prevent energy loss.
- Shop at the local farmers market.
- Going hiking? Take a trash bag and help pick up the litter.
- Get rid of paper-waste by switching to e-billing.
- Instead of bottled water, invest in a water purifier.
- After a busy day of saving the environment, treat yourself to a large bottle of wine. The larger the glass bottle, the less wasteful.

## Grins & Giggles

Why was the Easter Bunny so upset?  
*He was having a bad hare day.*

What does a rooster say to a hen he likes?  
*You're one hot chick.*

What do ducks have for lunch?  
*Soup and quackers.*

## Quotable

Perseverance is falling nineteen times and succeeding the twentieth.
